EXPERIENCE

DEV BOOTCAMP 2014–2015 | San Francisco, CA
FULL-STACK WEB DEVELOPMENT STUDENT
- Built a range of applications, from lightweight web widgets to a decoupled iOS/Android mobile application
- Employed algorithmic thinking, agile development, version control, iterative software practices, database design, test-driven development, and production environment maintenance
- Learned how to learn: became adept at researching and implementing new technologies quickly and efficiently

EBAY INC. (STUBHUB) 2009–2014 | San Francisco, CA
SENIOR CONTENT ANALYST/PRODUCT SUPPORT SPECIALIST
- Performed quality control and mobile optimization on the events and venues appearing in StubHub's iPhone and Spotify applications
- Wrote MySQL database queries and iMacros automation scripts to manage and debug content and to supplement the in-house CMS
- Acted as the project lead for three key projects focused on internal content standards and task delegation

OPERATIONS SUPPORT SPECIALIST
- Managed quality assurance on thousands of listings monthly within Zvents.com's catalog, using the content management system and JIRA
- Automated event creation, event merging, data-scraping, and other common content tasks
- Assisted the New Experiences team in various ad impressions and advertising projects

PROJECTS

OURHOUSE 🔗
iOS and Android mobile app for coordinating housemates' events, chores, and payments

TOOLS:
Angular
Ionic
Rails
OAuth
Venmo API

CONTRIBUTIONS:
Focus was on Angular and Ionic, along with refactoring and modularizing the backend

RAPTORFRAME 🔗
A light, modular framework for rapid development of modern frontend projects

TOOLS:
JavaScript
CSS3
HTML5
Sass (SCSS)
Gulp

FEATURES:
Lints, compiles, and minifies SCSS and JS; provides a Gulp workflow and NPM devtools with custom scripts

KITTYPARTY 🔗
Team chat app where users can only communicate through messages with GIFS

TOOLS:
ES6 (Babel)
Angular
Node
Express
Giphy API

FEATURES:
Tokenizes and translates the user's messages into GIFs through the Giphy API

*

SKILLS

LANGUAGES
JavaScript • Ruby • Python * • CSS3
HTML5 • Shell Script • SQL

TECHNOLOGIES
jQuery • AJAX • Sass (SCSS) • Gulp.js
Node.js * • AngularJS * • Ruby on Rails
Sinatra • Ionic * • WordPress * • Foundation
Bootstrap • RSpec • Illustrator *

SPECIALTIES
Programming • RESTful Routing
UX Workflows • Wireframing
Model-View-Controller Architecture
Mobile-First Design • Responsive Design
Object-Oriented Design • Agile
Accessibility • Test-Driven Development
Iterative Development • Empathy
Documentation (Markdown, LaTeX)

EDUCATION

SCHOOL
DEV BOOTCAMP San Francisco, CA
Full-Stack Web
  Development & Programming
UCSB Santa Barbara, CA
Bachelor of Science – Biology (in progress)
DE ANZA COLLEGE Cupertino, CA
Associate of Science –
  Science, Math, & Engineering

CERTIFICATIONS
CISCO
CCNA Routing & Switching Certified
CCENT Certified
COURSERA
Algorithms – Design &
  Analysis I Certificate (Stanford)

PHILOSOPHY

Hi, I'm Ali
I'm a full-stack web developer looking for full-time opportunities. I am passionate about building products the right way and I obsess over modular code, organized markup, coherent stylesheets, and the sacred art of Karaoke.

---

*familiar; interested in developing further
